HOUSE WOULD GO SLOWLY IN OUSTING REBS

Think Squeezing Out of Insurgent Republicans May Delay Tax Program

FREAR IS FROZEN OUT
Congressmen Will Adhere to Policy of Keeping Progressives Off Boards

Washington, D. C.—(AP)—Republi- can leaders are showing a disposition to move slowly in dealing with insur- gent Republicans in the organization of a new house with the program for speedy action on the tax reduction bill a primary consideration in the matter. A plan has been tentatively advanced to postpone organization of the house committee—especially until the tax bill is disposed of, prob- ably just before the Christmas recess.

Representative Longworth of Ohio, designated by the Republicans for speaker of the new house and party leader at the last session, favors the plan as one to prevent delay and interference with the tax measure.

MIGHT DEFER

Such a course obviously also would defer the whole question of how the Republican organization will carry out the policy decided on in caucuses last spring of withholding important committee assignments from members of the party who supported the presidential candidacy of Robert M. LaFollette. With some leaders doubt- ful as to how far this policy should be pursued, the delay will give opportunity to judge the intentions of some of those listed as insurgents by their votes not only on the tax bill, but also on the organization of the house.

FREAR DROPPED

Mr. Longworth has specified half a dozen of the more important committees besides the ways and means committee from which Representative Frear of Wisconsin has been dropped and from which he believes Republicans who supported Mr. LaFollette should be removed. The tax reduction bill is already regarded as certain to be subjected to some attempts at amendment. Representatives Rainey of Illinois and Hull of Tennessee, Democratic members of the ways and means committee which unanimously ordered it reported, also have announced that minority views on the non-partisan bill will be presented to the house.

EPISCOPAL STUDENTS TO HAVE \$150,000 CHAPEL

Madison—(AP)—A chapel and assembly room, to cost \$150,000, comprising the first unit of an eventual \$800,000 episcopal project for University of Wisconsin students, has been agreed upon or erection next year if funds permit. The Rev. Norman G. Kimball, head of the university commission of the Episcopal church said here Wednesday. He said the decision was made at a meeting in Milwaukee Tuesday of the commission, three bishops and six laymen.

DOUMER FAILS TO FORM NEW FRENCH CABINET

Paris—(AP)—Senator Paul Doumer informed the president Wednesday afternoon that he was unable to form a cabinet.

Later former Premier Herriot, pres- ident of the chamber of deputies and leader of the radical party, was sum- moned by the president.

In fact the ad found thirty men and Mr. Harriman was able to pick the one he thought best suited for the place.

That's one of the good fea- tures of Post-Crescent "Help Wanted" ads—they give the advertiser a good range of choice in filling the position.

NEW ENGLAND PROMISED THANKSGIVING WEATHER

Washington, D. C.—(AP)—A wet and muddy Thanksgiving day for the eastern seaboard and snappy, clear weather for the middlewest was forecast Wednesday by the weather bureau. Old fashioned Thanksgiving weather with snow will prevail only in northern New England and northern New York and southward to the gulf states. Unsettled showery weather with moderate temperatures will hold forth until late in the day.

MANY CHRISTIANS ARE KILLED BY REB DRUSES

Beirut, Syria—(AP)—Fourteen naturalized American citizens who reached Beirut Wednesday with about 2,000 refugees from Rashayya west of Damascus, where fierce Druse attacks were ended Tuesday by the relief of the French garrison, say that in the hand-to-hand fighting between the Druses and Christian volunteers, the rebel tribesmen killed many women and children.

Smoking Is Forbidden By Most Schools For Girls

New York—(AP)—Apparently smoking is frowned upon by most of the large eastern girls' colleges.

Disagreeing with Bryn Mawr, which recently set aside a smoking room in each dormitory, several other colleges have either forbidden smoking outright or deferred action on the matter. At some colleges there are no restrictions, but the habit is discouraged.

Goucher college at Baltimore about a month ago forbade students to smoke in college buildings or public places.

At Wellesley a proposal that smoking be permitted off the campus was defeated last week. The practice is forbidden at the college. Radcliffe and West Virginia forbid smoking.

At Vassar, the habit is a matter of the individual's conscience, but the rules disapprove it as injurious to the health. The students, however, have voted against outright prohibition.

Nearly half the girls at Vassar have admitted they smoke. When Bryn Mawr took action the other day it was announced that less than half the students there smoked.

At Barnard smoking has never been forbidden. Last week by a vote of 448 to 42 Mount Holyoke girls voted for smokers.

The Massachusetts Institute of Technology, co-educational, has permitted girls students to smoke at undergraduate social affairs. At Smith college action has been deferred on the matter till spring.

Bryn Mawr alumnae seemed pleased over the lifting of restrictions.

BARBED AT MADISON

Madison—(AP)—Smoking by women in the university of Wisconsin buildings is forbidden by a rule in effect for many years. Miss Louise Nardin, dean of women described the rule as "rigid."

Most organizations of women students take a "wholesome" attitude toward smoking, said the dean. The girls are urged by the dean to consider the interests of the university. Smoking by girls, she said, has two major effects—it lessens the confidence of the people in the institution and the desirability of the women graduates in teaching and other occupations.

The people who support the university have a right to say what the policy shall be. Dean Nardin believes and "there is little question that the people generally do not want their daughters to form the habit of smoking."

NOT INTERESTED

Milwaukee—(AP)—Smoking by women students is a matter that does not seriously intrigue the interest of such students or deans of women in the various girls' colleges, normal schools or educational institutions in Wisconsin it was revealed here following action taken by Bryn Mawr college

DROP CHARGE OF BLASTING FISH

Unable to Produce Enough Evidence to Hold Deer Creek Man

Insufficient evidence against George Steilen, town of Deer Creek, who was arrested Aug. 16 charged with dynamiting fish in the Embarrass river in the town of Deer Creek caused Judge Theodore Berg to dismiss the case Tuesday afternoon after examination of Steilen and several witnesses had been held. Steilen entered a plea of not guilty when arraigned in municipal court. He had submitted to John Doe proceedings which were held for the purpose of determining whether there was enough evidence to hold him.

Four witnesses testified that Steilen was at his home during the entire afternoon the dynamiting took place. The only witness for the state who claimed that Steilen took part in the blasting was a small boy who said he saw him in a boat with four other men on the Embarrass river, and that a stick of dynamite was dropped into the water. Other witnesses for the state did not see the men in the boat, but only heard the explosions in the vicinity of the river.

PINCHOT WILL AGAIN RESUME COAL PARLEY

Harrisburg, Pa.—(AP)—Governor Pinchot was to discuss the anthracite coal situation here Wednesday with both John L. Lewis, president of the United Mine Workers and Maj. W. W. Inglis, chairman of the anthracite operators negotiating committee. The meetings will be held separately late in the day.

WORLD COURT MAY TIE UP TAX MEASURE

Ratification Plan Given First Place on Senate Calendar This Session

BY DAVID LAWRENCE

Copyright, 1925 by Post Pub. Co., Washington, D. C.—Now that the house ways and means committee has finished drafting a new tax bill, and passage by the house early next month is conceded, the question of how soon action by the senate may be expected is really the biggest piece of uncertainty facing the taxpayer.

What other industry, the farmers inquire, could stand a loss of over \$400,000,000 which faces the farmers on the basis of present prices? When crops are short the farmers frequently make money. When crops break records, he frequently loses, as the producer has no control over the laws of nature.

Estimates of the crop as of Nov. 1

Country's Bumper Corn Crop Makes Farmer Mad

Chicago—(AP)—The bread basket section of the country has a grudge. It stands to lose money on one of the five to exceed that figure.

Farmers in the nine midwestern states that raise two thirds of the country's corn say its cost is about 65 cents a bushel to produce this year's ears. They want to know where the justice is in selling it at 50 to 60 cents at the farm.

They are willing to forgo, taking into account the 16-hour day of bittersweet work between steaming corn rows and figure only on a basis of dollars and cents—something presumably understandable to the pale man in city canyons.

So Tuesday a group of bankers, businessmen and government officials met in Washington with Secretary Jardine to discuss a means for aiding Iowa farmers, at least, in marketing their corn to better advantage.

There remains no doubt that the bill will be cleared through both houses before March 1 but in order to save time and money the measure ought to be passed by Feb. 1 so as to allow the treasury to print and distribute new tax forms. Action by the senate on the tax bill, however, is curiously enough tied up with something entirely unrelated to revenues, namely the resolution proposing American adherence to the world court. An agreement was reached at the extra session of the senate last March where the first place on the calendar debate to continue without interruption until a vote is taken.

NEVER CLAIMED SHE WAS WHITE

Mother of Mrs. Rhinelander Says Daughter Never Deceived Future Husband

Philadelphia, Pa.—(AP)—Two negroes were arrested here Wednesday charged with attacking women, after the reappearance of "The Strangler," a crafty individual or individuals whose swift and sudden attacks on lone and unescorted women during the last few weeks has caused the death of three women and created terror.

One of the prisoners gave his name as Ed Jackson. He was arrested a few minutes after Mrs. M. Kassinow encountered a strange man in her house, fought off his advances screamed "nigro" from her doorsteps and then fell in a faint.

The other suspect is William Davis, held without bail on a charge of attacking Mrs. Gladys Levin, a semi-invalid girl a few minutes after she had alighted from a street car. She later aided in capturing him.

Both men denied attacking the women, but detectives said they were certain that Davis was the man who clutched Miss Levin by the throat.

"Did you ever hear Alice say she was white?"

"No."

"Did Rhinelander ever question your daughter's color in your presence?"

"No."

Justice Morschauser Wednesday afternoon granted the plaintiff's request to amend the original complaint over the objections of defense counsel. The amended complaint now charges Alice with defrauding young Rhinelander negatively, in not telling him that she was of negro blood.

"I never heard that spoken of," said the witness.

TWO INDICTED FOR \$3,000,000 FRAUD

St. Louis, Mo.—(AP)—Three indictments against Murray Carleton and Forrest Ferguson, charging them with feloniously making false statements to obtain \$3,000,000 bank credit for the Ferguson-McKinney manufacturing company, now in receivership, were returned Wednesday by a circuit court grand jury.

As the court adjourned Wednesday subject to call of its president, rear admiral Hilary P. Jones, it was announced by Judge Advocate Leonard that should he find upon examination of Col. Mitchell's testimony before the army court-martial any matters germane to the Shenandoah inquiry he would seek a process to bring the colonel before the naval tribunal.

This could not be done, however, until after the army court-martial proceeding against Col. Mitchell had been concluded, the judge advocate added.

Should it be decided not to call Col.

Mitchell there will remain the summing up by counsel and representatives of the interested parties before the court proceeds to the formulation of its findings.

100 DROWN IN FLOODS AFTER ATHENS RAINS

London—(AP)—More than 100 persons are believed to have perished in the floods in Athens following a torrential rain of an hour and 20 minutes Tuesday, says a dispatch to the Daily Express. Many houses in the refugee settlement collapsed. The inmates were buried in the ruins and many were swept away and drowned.

Flood waters from Mount Lykabettos washed up 38 tombs in a street here. Five mummies and numerous gold ornaments and vases were uncovered. It is not known to what epoch the tombs and mummies belonged.

DRAFT CONSTITUTION FOR Y. M. C. A. VILLAGE

After nearly two hours spent in completing the constitution of the new Triangle village of the Y. M. C. A., members of the village declared themselves satisfied with their efforts and adopted it at the meeting Tuesday evening at the Y. M. C. A.

The meeting was held especially to complete the work so that the village government can start functioning immediately.

The constitution now must be ratified by a vote of the villagers.

BREAKS HIS KNEE DANCING CHARLESTON

Des Moines, Ia.—The intricacies of the Charleston, latest fad dance, will probably appeal less to Melvin Eusler of Des Moines when his knee is released from splints in a few weeks than they did Tuesday when Eusler attempted the dance at a house party here. He broke his knee bone executing one of the more difficult steps of the dance.

JURY FREES FATHER AND STEP-CHILD

Mrs. Harcq and Holt Are Acquitted on Charge of Murdering Mrs. Holt

Waukegan, Ill.—(AP)—An acquittal was returned by the jury trying Mrs. Clara Harcq and Arthur Holt, her stepfather, on charges of murdering Mrs. Little Holt, her mother and his wife, in the Holt home in Fox Lake last September. Albert Harcq, husband of Clara, accused as an accessory, also was freed.

The trial revolved around whether pistol wounds in Mrs. Holt's head and abdomen were self-inflicted. The defense maintained she shot herself after a violent quarrel Sept. 20, when Holt and the Harqs returned home late from playing golf and Mrs. Holt said they had kept dinner waiting.

The prosecution contended the nature of the wounds prevented a suicide theory.

Holt and Mrs. Harcq testified that they did not see the shooting and that Mrs. Holt had gone into another room. Harcq said he had left after the quarrel but before the shooting.

THREE ARE KILLED IN TOLEDO TRAIN CRASH

Toledo, O.—(AP)—Two men and a girl are dead and another girl is dying as the result of a crash at Benito road and the Michigan Central railroad tracks east of here early Wednesday. The victim's automobile was hurled 100 feet down the track and demolished when struck by a fast moving freight train.

The other suspect is William Davis, held without bail on a charge of attacking Mrs. Gladys Levin, a semi-invalid girl a few minutes after she had alighted from a street car. She later aided in capturing him.

Both men denied attacking the women, but detectives said they were certain that Davis was the man who clutched Miss Levin by the throat.

Miss Levin identified him in court and Miss Dorothy Robins, who told police she was seized and choked by a man a week ago, partially identified Davis as the assailant.

The necks of both Mrs. Kassinow and Miss Levin showed bruises where their attackers had tried to choke them. In court Miss Levin screamed faintly and became hysterical when Davis was brought into the room.

COUNTY SPENT \$179,000 FOR ROAD BUILDING

Approximately 58 miles of highways graded and repaired during year.

Approximately 58 miles of graded highways were completed under the county and town aid appropriations in Outagamie County in 1925, according to A. G. Isenbaur, county highway commissioner, who submitted his annual report to the county board of supervisors at its annual November meeting last week. Of this total number about 15 have been surfaced with either gravel or crushed stone.

Another six miles of concrete pavement was laid in the cities of Appleton, Neenah and Kaukauna, and the villages of Black Creek, Bear Creek and Shiocton being the beneficiaries.

Under the county and town aid, 15 miles were completed. They are the Elmer Bridge in the town of Freedom, Seneca Bridge in the town of Menasha, Bush's bridge in the town of Fincastle, Sparta bridge in the town of Neenah, and Young bridge in the town of Maple Creek.

SOME WORK UNFINISHED

The new school program recommended by the county highway committee at its Oct. 23 session of the board of supervisors was completed with the exception of two cuts and two bridges which apparently were not carried in the survey and map. These projects will be completed within three or four weeks.

The new school program recommends the construction of a highway connecting the two sections of the highway of state users was completed with the exception of two cuts and two bridges which apparently were not carried in the survey and map. These projects will be completed within three or four weeks.

The construction of the county highway improvements to keep county highways clean of snow during the coming winter. Parcels will be sent to each road to remove snow on the highway between Appleton and the town of Neenah and Lomira said Monday.

Of the \$1,424,112 appropriated for road construction in the county at the November 1924 session of the county board, a balance of \$16,461.77 remains. A total of \$16,461.77 of the total amount available for road construction to \$155,743.87. Expenditures during the year amounted to \$157,537.60.

Expenditures were made as follows:

Little Chipp—Freedom road, \$15,743.15; Pearl Creek Leeman road, \$1,360.00; Oconto County Trunk E \$16,461.77; Kaukauna County Trunk J \$1,424.00; Waupaca County Trunk A road, \$1,485.81; Appleton Lemmawahag road, \$11,994.16; Menasha County Trunks E and F, \$11,212.68; Combined Locks section, \$67.58; cut of Seymour \$1,121.75; Dike bridge, \$12.55.

Little Chipp—Dike road, \$15,743.15; Shiocton Bear Creek road, \$18,461.80.

Shiocton—Bear Creek rd., \$2,540.15;

Kaukauna to Trunk Highway N

\$18,000; Kaukauna County Trunk S \$11,927.90; cut of Lemania Dodge St., \$16,531.70; Town of Lemania Hobart Hill road, \$2,000; Outagamie County Trunk M \$4,000; Appleton-Cherrywood-Tichenden—\$12,146.57; Black Creek State trunk Highway 47, \$15,400.

Finally \$1,093.47 was expended for road construction under county and town aid according to his report. The total revenue from the districts was \$12,200; the amount advanced the districts was \$15,500, making the total available of \$39,647.64.

Expenditures in the various towns under county and town aid construction were:

Buhrman, \$7,492.05; Ceresco, \$1,

148.92; Deer Creek, \$2,518.11; Freedom, \$5,000; Holmen, \$6,648.11; Liberty, \$2,837.35; Menasha, \$1,656.50; Maple Creek, \$47.61; Oneida, \$6,464.49.

SHIP EXPRESS PARCELS EARLY, COMPANY ADVISES

Christmas shoppers are being cautioned by W. N. Kimball, agent of the American Railway Express Co., to ship their gifts early in order to relieve the strain of the rush usually encountered in the last few days before Christmas. Errors in addressing packages and inadequate packing cause most of the delays in Christmas shipments, according to Mr. Kimball.

When the address is legibly written and complete in all details, the package is quickly delivered to the person to whom it is addressed and seldom goes astray. All packages should not be used in writing the name of the shipper. It is essential to give the street and number of the house.

The sender should not fail to put, on her name on the back of the label, but put the address on the inside of the package as well as the name of the outer address. If the label is damaged, send another one, if necessary, and to the express company expressing the same facts.

BANKRUPT'S ASSETS TO BE SOLD AT AUCTION

A representative of the adjustment bureau of the French Association of Creditors will sell in Appleton Saturday morning to dispose of the assets of George T. Cook, bankrupt, in public auction, according to word received from Charles D. Price, manager of the association. Assets consist of a stock of groceries, dry goods and used furniture and equipment for which the appraised valuation is \$177,529. Funds of \$8,000 less \$6,000 deducted, leaving a total of \$1,558.25. These assets will be sold to the highest bidder for cash, subject to confirmation by the court.

WALK ON BRIDGE IS NEARLY DONE

Suspended Sidewalk Gives Autoists More Room, Protects Public

It will be only a few days more before pedestrians using John St. bridge will cease being exposed to traffic dangers as the new cantilever sidewalk will be finished within a week, according to R. M. Connell, city engineer.

All of the iron work is in place and workmen now are building the plank walk. Extra time is required because the planks are being dipped in creosote thus insuring them against decaying for many years.

The walk is attached to the bridge along the south side outside of the bridge proper. The framework is built of structural steel and bolted to the framework of the south bridge rail. Planking is being laid on the upper beams, providing a substantial sidewalk.

This arrangement gives a greater use of the bridge roadway and the former "concrete" sidewalk.

The bridge was too narrow to accommodate passage of cars and as a result sidewalk rail next to the roadway, pedestrians were exposed to danger and in one or two instances had their lives threatened as they were walking onto the walk. Now the people will be protected as they are entirely outside of the bridge proper.

Mr. Connell is undecided as to what will be done to the rail.

There is a rise of two to three feet from the paving to the walk and a buffer may be employed in the spring to grade off the shoulder of the walk so the bridge can be used without reinforcing.

SMITH RESIGNS AS MANAGER OF TUTTLE PRESS CO.

Will Leave March 1 for California to Be Company's Western Representative

Edward N. Smith, 421 E. College Ave., vice president of the Tuttle Press Co., for five years and vice president and general manager for three years, has resigned his position to become effective on Jan. 1, and will leave about March 1 for Los Angeles to become the company's representative on the west coast. R. H. Purdy, who joined the company three years ago, will succeed Mr. Smith as general manager. While Mr. Smith's resignation is to become effective on Jan. 1 he has consented to remain until March 1 to assist the new officers in their work.

Mr. Smith said it had been his ambition for ten or more years to live in California and no better opportunity for realizing that ambition than at the present time has presented itself. He believes that the company's business on the west coast can be built up and he is determined to leave now because the company's affairs here are in splendid condition. Directors of the company attempted to prevail on him to remain here but he was determined to move to the west.

Mr. Smith has been in the Tuttle Press organization for eighteen years. He was manager of the Chicago district for ten years prior to coming here in 1920. Mr. Smith came here as vice president and sales manager and three years later when S. A. Whedon withdrew from the company and a reorganization was effected he became vice president and general manager.

Since coming here Mr. Smith has had a prominent part in the city's civic life. He served as president of the Rotary club and is at present a member of Citizens Nation bank.

He intends to dispose of his residence on E. College Ave before leaving for the west.

C. O. C. ASKS STATE TO KEEP CARS RUNNING

Continuance of street car and interurban service in Appleton and surrounding points is urged in a resolution adopted by the chamber of commerce and submitted to Wisconsin railroad commission. This action was taken in view of announcement of Wisconsin Traction Light, Heat & Power Co. that it intended to abandon service on Appleton and Neenah.

The chamber points out its feeling that there is a need for the railway service. The resolution expresses a hope that changes in special road regulations may be made so that one utility can keep its cars in operation without a loss.

V. R. McDonald of Kaukauna, received the resolution for the commission.

EXPECT LARGE CROWD TO SEE LABOR MOVIE

Appleton Trades and Labor council will have a large number of local citizens to its guests at the free motion picture "Labor's Reward" which will be shown at 8 o'clock Wednesday evening at the new Memorial camp. The public is invited to attend.

Members of various labor unions have been supplied with tickets which they are passing out to their friends. It is not necessary to have a ticket, although no children will be admitted unless accompanied by at least one adult.

It is expected that large numbers of people will want to see this particular film of the romance of labor. It is educational yet dramatic and teaches the principal historical facts of the labor movement.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

extensions and improvements.THE NEW PRESIDENT OF LAWRENCE
COLLEGELawrence College started a new epoch
in her illustrious and eventful history
with the inauguration of President Hen-
ry Merritt Wriston on Tuesday.

Dr. Wriston is beginning his career as

head of Lawrence College under the most

auspicious circumstances. Under the sagacious leadership of the late Dr. Samuel Plantz the college developed into one of

the leading educational institutions in the

country. It has a reputation which causes

young men and women to come to it

from all parts of the Union. It is no

longer the sickly, undeveloped infant that

it was when Dr. Wriston's illustrious pre-

decessor took charge a quarter of a

century ago. Lawrence now is a virile,

lusty college rightly placed among the

great schools of the nation.

But the task of the college president at

best is not a sinecure. In him is reposed

the confidence of the parents who send

their children to his institution, and on

him is the responsibility for that training

which will fit them for the fierce struggles

of life. In the short time that he has

been here Dr. Wriston has demonstrated

that this confidence may well be reposed

in him, and that he has a high sense of

his responsibility. We believe that the

college trustees, satisfied when they chose

him that Dr. Wriston would meet the de-

mands made on him, now are doubly sure

that their choice was guided by the Provi-

dence which has been particularly gener-

ous to Lawrence College.

Those who have met Dr. Wriston have

found him to be a most genial sort of a

person. He has the attributes which

make him popular with his fellows and

with his students, and at the same time

there is in him that which gives the im-

pression that here is a man who is a doer

as well as a thinker. And that is what

Lawrence College needs to continue along

the highroad on which it was placed by

Dr. Plantz.

Appleton, with which Lawrence has

been so closely linked for all these decades

is as happy as is the college in the good

fortune which has come to it. It has been

demonstrated time and again that what

is good for Lawrence is good for Applet-

ton. Therefore, as citizens we rejoice

with Lawrence and we congratulate her

on this auspicious beginning of another

era of prosperity and influence.

THE PROBLEM OF GREAT BRITAIN

Sir John Philip Gibbs and John Gals-

worthy in a recent issue of the "Living

Age" express great concern for the future

of England. The former bluntly asks the

question: "Are we done?" He is afraid

that modernism, coupled with the heavy

burdens of the war, have undermined the

old British spirit of resolution and sac-

rifice. Galsworthy is not so pessimistic,

but acknowledges that the situation is

desperate. His remedy is to increase

British production from the soil, and to

colonize British dependencies with the ris-

ing generation of England. That, he

thinks, would solve the ever pressing diffi-

culty of importing and paying for food

supplies and raw materials, and would af-

ford a market for British goods. He also

argues that it would restore the balance

between city and country population and

production, which for the present at least

is hopelessly upset. It would also help

to bring British colonies, all of which are

in need of man-power, into their own im-

mediately. Requirements of the colonies

in manufactures would keep British indus-

try in prosperity, while English consumption
of their products would do the same for them.We think some such solution as this is
inevitable. It is estimated that less than
one-fifth of the British people today are on
land. Over four-fifths are in the cities.
This maladjustment is economically and
socially unsound. The British Isles can
raise more wheat than they do raise, and
should. They can raise many things for
home consumption on soil that is not now
cultivated or at least not to the maximumintensity. England today imports more
than she sells. The balance of trade is
against her. Because of higher living
conditions and production costs, it is a
question whether she can ever recover her
markets in continental Europe against the
lower standards and costs there. Her
best bet may be to develop new markets
within her own union of states.

In many respects Great Britain faces a

tougher future than any of the other great
nations of Europe. We would not be sur-
prised if she were the last to fully recover.We expect to see Germany, France and
Italy come back sooner. The dole system
is not solving her unemployment problem.
From time to time there are "breaks"
which seem to be for the good, and those
who are carrying on do not seem to lose
hope. Nevertheless, nothing has yet de-
veloped in England's situation which of-
fers the prospect of reestablishment the
world would like to see.

NAVY PROTECTS ITS OWN

The first by-product of the Mitchell
court-martial is the exoneration of Captain
Foley from the charge of attempting to
influence the testimony of Mrs. Lans-
downe, widow of the commander of the
airship Shenandoah. The promptness
with which the naval court of inquiry into
the loss of the Shenandoah gave Captain
Foley a clean bill of health is, we imagine,
somewhat disappointing to the public.There being a direct conflict between the
testimony of Captain Foley and Mrs.
Lansdowne, necessarily the court had to
make a choice, and it has refused to accept
the word of the latter.There will be plenty of persons who
will prefer to take the word of a woman
who would not be intimidated. Furthermore,
there were circumstances in the

conduct of the case that indicate a preju-

dice against her, as well as proof that
Commander Lansdowne did make protests

that his superiors assert he did not make.

On the whole, it looks like a gentle white-
wash, with the probability that the in-
vestigation of the Shenandoah tragedy
will not be of any concrete value. The
speed with which the navy has come for-
ward to "protect" its discipline and bu-
reaucrat system will also incline a larger
measure of public sentiment toward Col.
Mitchell in his fight with the army chiefs.There will be plenty of persons who
will prefer to take the word of a woman
who would not be intimidated. Furthermore,
there were circumstances in the

conduct of the case that indicate a preju-

dice against her, as well as proof that
Commander Lansdowne did make protests

that his superiors assert he did not make.

Instead of attempting to formulate such rules
which are probably not accepted by people who
need such advice, I will merely mention a few
scientific truths or facts and leave the conclusion
for the reader to draw for himself:

1. If the temperature in the office soars above

65 degrees Fahrenheit the air is foul.

2. A draft is an air current, and ventilation
without movement of the air is impossible.3. In an artificially heated office room the zone
of comfort is between 64 and 68 degrees F.—the
humidity is fairly good at that temperature. When
the temperature rises above 68 degrees F. the hu-
midity falls below the comfort level, and no prac-
tical means of keeping the humidity up to com-
fortable level is available. An atmosphere at 73 degrees and
the low humidity which goes with that degree of heat
feels more chilly than an atmosphere at 68 de-
gree and the more wholesome degree of humidity
which goes with that degree of heat.

LIGHT GLOBES

You long can tell when you're gonna have light,
Or be in the dark with the coming of night. For
just at the time when in light globes we trust,
the switch doesn't work for the bulb has gone bust.It's taking low people forced to replace the globes
that are down, but that's always the case. We
never knew that we're gonna get stuck for we've
all got the habit of trusting to luck.The globe in the dining room flickers a bit,
When it's blown we will start in to monkey with it.
We tap on the glass till it glows forth, and then,
an hour or so later it blows out again.Well carry the globe round from this room to
that till we don't know where all of the good ones
are at. Poor father will figure that someone has
got for removing the lamp light out into the hall.It seems that, in daytime, we never stop to think
that a lot of our light late gone by blind. For
getting to purchase just brings on disgust, when
the last globe's met brood, at night time go time.Petitions were being circulated for the appoint-
ment of E. N. Torrey of Hortonville, chairman of
the Republican county committee, for the position
of state oil inspector. Dr. H. P. Tanner of Kau-
kauna, was holding this position at the present
time.The new Baptist church on Appleton-st, which
was nearing completion, was to be used for the
first time the following Sunday. Services were
to be held temporarily in the Sunday school room
in the basement.A daughter was born the first of the week to
Mr. and Mrs. A. K. Messmer.Miss Blanche Chilson, who was ill with typhoid
fever, was recovering gradually.A marriage license was issued to Charles Reffle
and Bertha Court, both of this city.It is easy for a girl to find a husband. Her dif-
ficult problem is finding a single man.The things you neglect do not matter half so
much as the neglecting of them does.Character is about like muscle. If you are not
called upon to use it, either they become soft and
flabby.Among the symptoms of love are a vacant feel-
ing inside and an enlarged vocabulary.A boozie is a man who eats cloves to make
his friends believe he has had a drink.Some is known by the company he keeps from
friends.Are you broke or did you have your winter coat
mended?Talking about what big fires they have in hell
won't make a little boy want to go to heaven.There is one bad habit worse than all the others.
It's the habit of forming bad habits.Keep your joys to yourself, and others, thinking
you have none, will hide theirs from you.

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician And AuthorDr. Brady will answer all signed letters per-
taining to health. Writer's names are never
printed. Only inquiries of general interest are
answered in this column, but all letters will be
answered by mail if written in ink and a stamped
self-addressed envelope is enclosed. Requests for
diagnosis or treatment of individual cases cannot
be considered. Address: Dr. William Brady, in

WHEN TEACHERS DISAGREE

One editorial colleague complains:

'I have been leading a lonesome argument for
proper ventilation in our office. We have the usual
glass window ventilators but every time the
window is opened one of the typists immediately
catches cold from the germ which inhabits the
draft.''I had hoped for ultimate success in my efforts
until one of the aforesaid typists came across the
enclosed item in one of the other papers here. This
Dr. Reed becomes immediately an absolute authority.''Please give a few common sense rules for
ventilation and the subject of "colds" in general that I
may be able to open the windows again.''In the same mail comes this inquiry from a
member of the old timers termed it, weaker
sex who, too, apparently runs a newspaper:'Is it possible to catch a cold by sitting under
an open sky-light or by getting wet feet?''I believe that it is impossible to catch a cold
except by inhaling germs in the air or by getting
enough to one with a cold to get the germ
from him. But several of the girls in our office
dispute this, and to prove my point I said I would
write to you. These same girls believe that if a
girl were to wash her head or get her feet wet at
certain periods she would develop tuberculosis or
lose her mind or some such silly thing. Help me
enlighten the poor things.''The newspaper item enclosed by the first corre-
spondent is a contribution by Dr. C. A. L. Reed,
emeritus professor of gynecology in University of
Cincinnati, and Dr. Reed tells the world in this
article:'Thus you know that these germs have reached
you through cold air!—''Though just how you know it the item does
not explain.'

'And therefore that hot air destroys them.'

'If you know that hot air destroys germs you
have a case of Billings complaint. I should say.''Then at once, before they have time to penetrate
your system, get into a well heated and well
ventilated room, the hotter the better, and stay
there until all symptoms of their presence have
subsided.''Dr. Reed may not be as Irish as he sounds, but
he can get off some first class Hibernianisms. I<br

COUNCIL CUTS KAUKAUNA PAIR 20 CENTS OFF WILL CELEBRATE CITY TAX RATE GOLDEN WEDDING

City Raises \$273,510 for All Family and Friends of Mr. and Mrs. Hubert Niesen to Observe Gala Event

Kaukauna—Kaukauna must raise \$273,510 in city, state and county taxes next year and the rate will be \$3.30 for each 100 of assessed valuation. This rate is 20 cents lower than last year.

The council also voted to scrap the old iron bridges that span the river at the lower end of Wisconsin-ave to make way for the new bridge which is very nearly completed.

A claim by Joseph Lehrer for \$1,000 was disallowed. Lehrer claimed the damages as the result of running into the gates of the Lawest bridge. He declared that the proper signals were not placed and he did not know that the gates were open.

MERCHANTS HEAR APPLETION MAN ON CIVIC CLUB WORK

Opportunity for Making Kaukauna Better City Offered by Commerce Association

Kaukauna—Hugh O. Corbett, secretary of the Appleton Chamber of Commerce addressed the Kaukauna Men's association Tuesday evening and gave an interesting talk concerning the things that an organization of this type could and should do to benefit the town it is working for. An informal discussion was held after the meeting and Mr. Corbett answered questions asked him by various members of the club.

"There are five physical forces that enter into the building of a community," said Mr. Corbett, "and these are distribution, wholesaling, manufacturing, agriculture and social."

Mr. Corbett then gave a short explanation of each of the features and also illustrated them with concrete examples that have been gleaned from his many years of service.

He started his talk with an explanation of the chamber of commerce explaining the system of organization at Appleton and also told of some of the work there. Then Mr. Corbett told the meeting of the special schools that recently have been coming to the front, offering courses that train men to act as secretaries of these organizations so that the work could be done right.

"Although we have not yet much time, we will," said Mr. Corbett in a recent survey taken in Illinois we found that of the various organizations similar to yours in Kaukauna that had started within the past 75 years the average life has been from 2 to 5 years. In most cases those organizations that started out with the purpose of getting new industries into a city lasted but a short time while those that started with the purpose of working for the good of the community generally lasted a longer period."

The business men were then advised to form their organization along these same lines and to work for the good of the city rather than to try to bring more industries into the town. A recent survey made by Secretary Hoover shows that to day there are less industries in the United States than there was in 1920, according to Mr. Corbett, and he then pointed out the fact that wholesalers were to be valued as much and more than industries and he gave figures to prove his statement.

The four things than an organization similar to the one in Kaukauna can do are:

(1) Establishment of an information bureau which can and will find out just about anything that the person may want to know.

(2) Credit rating bureau which will operate only through the successful cooperation of the merchants of the city and which will rate the credit of every person in the city and those in all the outlying districts.

(3) Public rest rooms and checking services for shoppers coming to the city. Mr. Corbett again used figures to show the value and the profit of this plan.

(4) A vigilance committee composed of from three to five men which is a secret committee to investigate the various schemes that are introduced from time to time in order to get money from the merchants. Mr. Corbett again gave concrete examples of the benefits of a committee of this kind.

Mr. Corbett ended his speech with a plea for a state organization that could present a solid front and demand the right kind of legislation from the law makers at Madison.

This special meeting will last only a short time and will only be for the purpose of completing and passing on the plan formed by the committee.

It is probable that prizes will be awarded and special Christmas decorations will be used and that the merchants will prepare to give the Christmas shoppers the largest and the best buying assortment ever known in Kaukauna.

The meeting also decided that all stores will remain open on Monday, Tuesday and Wednesday evenings before Christmas and that all stores will close on Christmas eve. The men also decided to close on Wednesday evening before Thanksgiving day.

The Royal Arch Masons will hold their regular meeting Wednesday evening in the Masonic hall.

The regular meeting of St. Mary court of Catholic Order of Foresters which was to be held Tuesday evening was postponed until Thursday evening on account of the Forty Hours devotion which is being held at present at St. Mary congregation.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga.

350 AT DINNER IN HONOR OF NEW COLLEGE CHIEF

Alumnus and Prelate Chief
Speakers at Banquet for
President Wistson

After the impressive inauguration service which installed Dr. Henry Merritt Wistson as president of Lawrence college Tuesday morning, 350 persons, including faculty, trustees, alumni student representatives and guests assembled in the banquet hall of the First Methodist church for the inauguration luncheon shortly after 1 o'clock.

After the banquet two toasts were given, the first by Miss Elizabeth Wilson of New York city, and the second by Bishop Edwin Holt Hughes of the Board of Bishops of the Methodist Episcopal church. Dr. James S. Reed acted as toastmaster.

Miss Wilson is an alumnus of the class of 1890 and is now international secretary of the Young Women's Christian association having spent many years in the work of training Y.W.C.A. secretaries both in America and India from which she has just recently returned. She spent five years on the faculty of the department of English at Lawrence and is studying abroad.

Miss Wilson spoke briefly on what a modern college is made of. The modern college is bounded on the north by the community, the town, the trustees, the deputation of the college, he said. Although it was always one day in most members of the family would journey about the 17.

He said that during the last few years more and more persons have been eating their Thanksgiving dinner at restaurants and hotels. The reason for this is obvious, he said. Although it was always one day in the student body. On the south the sea from which the growing breezes prevail, it is bounded by the faculty and on the west it is bounded by the student whose faces are set toward the rising sun but who from time to time look back over their shoulders to the college. Each one contributes to the sacrifices which make a college.

Bishop Hughes' toast was to the teacher, devoting four points the estimation of the teacher, the depreciation of the teacher, the appreciation of the teacher, and the exaltation of the teacher. Our teachers open our eyes so that we see more, our ears so that we hear more, our lips so that we speak more. They have in some measure defeated our three fold enemy (blindness, deafness and dumbness). They have been the under-

Plenty Of Gas To Cook Thanksgiving Day Dinner

Appleton housewives need harbor no fear that their gas supply will run short on Thanksgiving morning. This reassuring information comes from the Wisconsin Traction, Light Heat and Power Co. and should set at ease the minds of those cooks who were considering preparing their "biggest meal of the year" the day before Nov. 26. Such a prospect will be unnecessary officials of the company said as more than enough gas to supply the demand of local residences will be available.

More gas is used on the morning of Thanksgiving Day than on any other day of the year, the traction company reports. But it is not this increased demand which gives the company any problem; it is the abnormal demand which is made at the same time and within the short space of two or three hours.

LESS DEMAND NOW

The problem of furnishing sufficient gas on this day is not as great as it was a few years ago, one official said. The only explanation he offered is that fewer persons cook their own Thanksgiving dinner now. It was not so long ago that the capacity of the company's gas supply was very nearly taxed on the last Thursday in November, but this condition no longer exists.

He said that during the last few years more and more persons have been eating their Thanksgiving dinner at restaurants and hotels. The reason for this is obvious, he said. Although it was always one day in most members of the family would journey about the 17.

The "Sap" is one of those impudent men who are full of ideas ingenious in themselves, but which fail to bring in much needed money to pay the rent the grocer and others who may demand money. His continual refusal to go to work and his continuous flow of the "newest ideas" although the proted exasperating to his family were amusing to the audience. "The Sap" brings the play to a successful close when one of his ideas of playing the markets turns out well.

Wednesday night, Frank Winninger's two children Frank Jr. and Dawn appear in leading roles in "Daddy Dumplin's" which promised something out of the ordinary in entertainment. Both children, one 3 and the other 7 years of age, won an excellent reputation as clever juvenile artists in the cities played by the company this season.

STARS GLITTER IN LAST SHOWING OF "RICHELIEU"

Catholic Players Please
Mightily in Final Production
of Great Drama

When J. M. Van Roon learned the painter's trade and embarked in the printing business the world lost a good actor. The hundreds of people who were in St. Joseph hall Tuesday night to see the final presentation by the Catholic Players guild of "Cardinal Richelieu" will vociferously prove that statement. For Van Roon gave as masterful an interpretation of the difficult role of Cardinal Richelieu as any of the famous actors who have played the part. From his first appearance on the stage until the final scene he dominated the play and was one of the great causes for its splendid success.

But Van Roon did not have to work alone for around him was a cast of as capable actors as has been gathered together in Appleton in a long time. There wasn't a weak spot in the production. J. B. Langenberg, an experienced actor, was at his very best as Adrian DeMauprat and equal-

ly as good was J. Edward Murphy in the hard part of Grandis the favorite of King Louis XIV, played by K. M. Connolly.

Miss Marie Schumacher as Julie Des Mortemar the wifey of the cardinal added a beautiful feminine touch to the production and she pleased mightily with her song in the cardinal's hour of trouble.

Those who expected to see just an amateur production got a real surprise in the finish of the play. It is much professional in its acting, its scenery and its lighting as can be put on by the highest salaries of the Cardinal Richelieu demonstrated that Appleton has dramatic talent of the highest type and that Appleton people need not pay fancy prices to see high class theatricals. Its own players can do as well as the best of them.

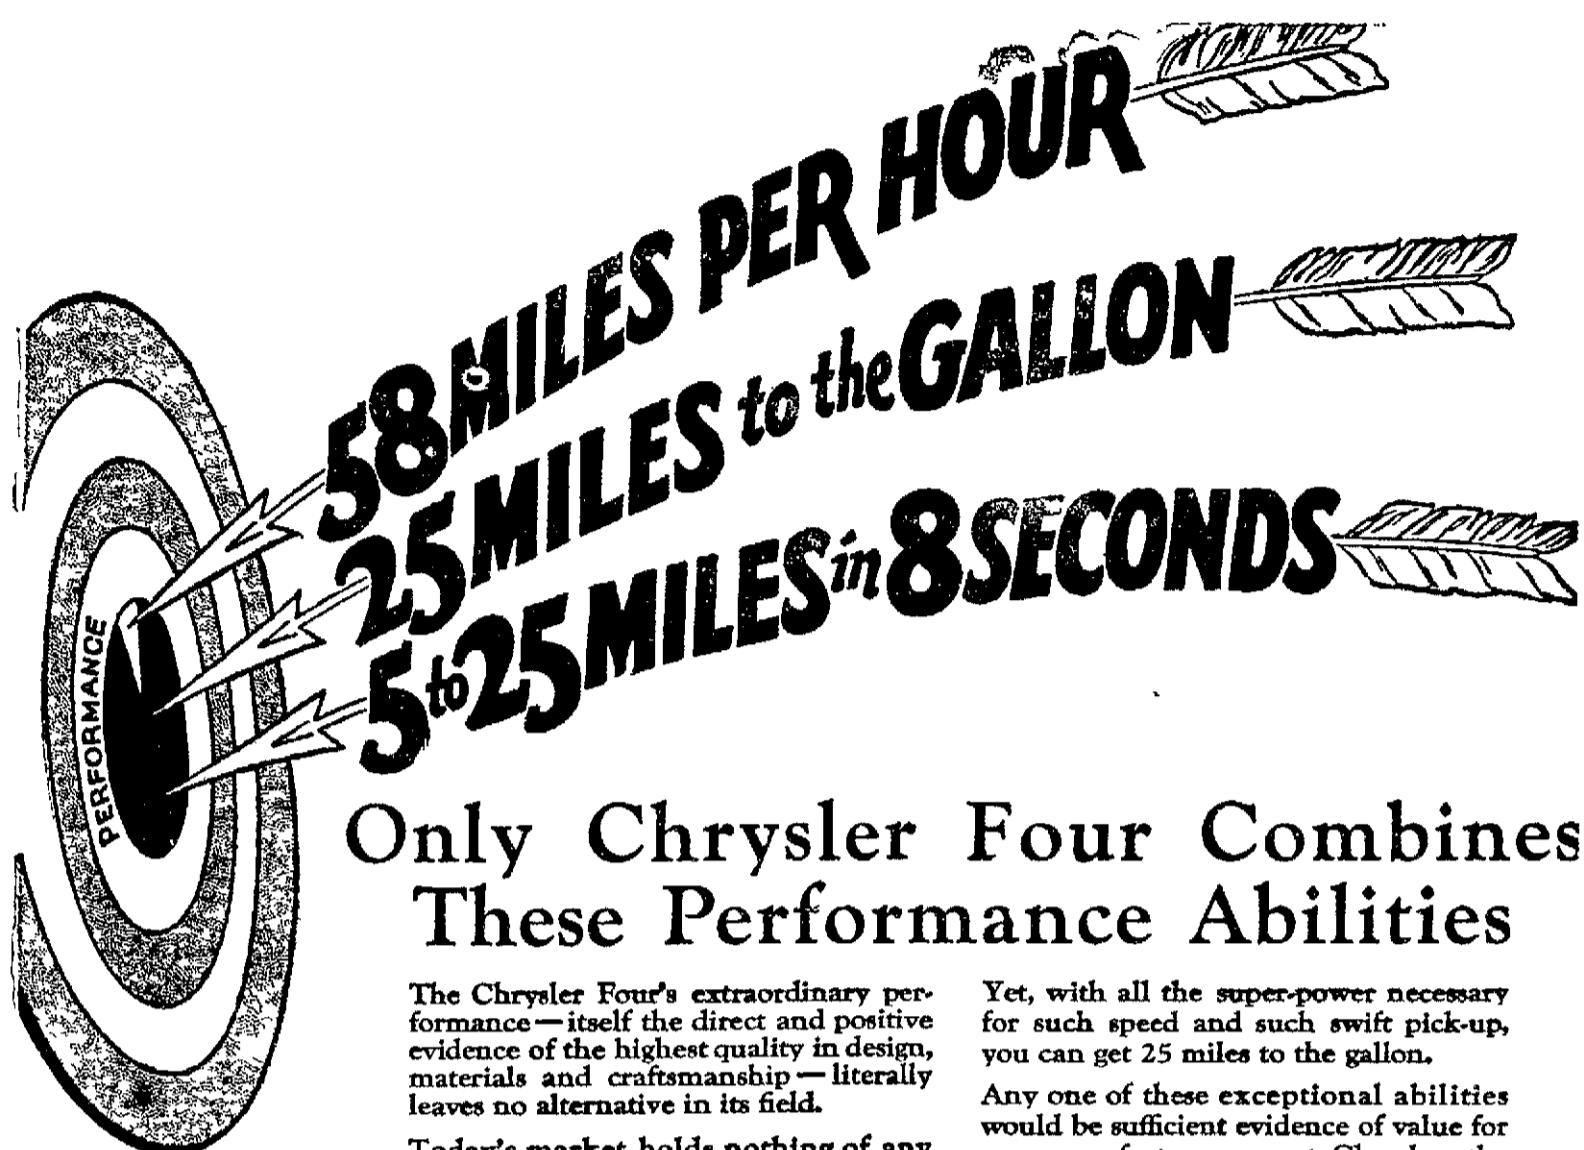

OFFER REWARD TO FINDER CITY IS GIVEN PRAISE OF STOLEN AUTOMOBILE FOR GARBAGE DECISION

A reward for information leading to the recovery of a Buick sedan, \$1,000, by Hugh G. Cobbett, century of the man who was stolen at Madison, chamber of commerce, over the action Nov. 23 is offered by the Wisconsin, at the city council Monday evening. An automobile Mutual Insurance Co. of which it concluded \$2,000 in the 1926 Mutual's budget to collect a budget for garbage disposal. This Mutual's headquarters are in Milwaukee, the head office of the major projects on the Wisconsin line, D-588. The serial number is 1,331 and the motor number 511,688.

All possible help is given the chamber in learning what the automobile equipped here for municipal garbage disposal and collection. It is equipped with Goodwin wings, a spotlight through the windshield system and in computing facts about the windshields, windows and front end the systems used in other cities and countries. The speedometer reads 70 miles per hour. A special copy was obtained in time with dark stripes.

The handling of this problem in cities the size of Appleton. The community welfare committee of the chamber with T. E. Carlson as chairman circulated petitions among the people to voice their wishes. Results of this survey were communicated to the council and the committee met with city officials to present arguments as to why this problem should be taken in hand immediately.

SENIORS BATTLE JUNIORS FOR H. S. CAGING GONFALON

Sophomores and Freshmen Defeated in Second Round of Class Tournament

Neenah—The Seniors defeated the Sophomores by a score of 9 to 7. Tuesday afternoon in the second round of the high school inter-class basketball tournament in Roosevelt gymnasium. The seniors, in a nip and tuck game, defeated the Freshmen team by a score of 12 to 10. The winning points were made in the last two seconds of play.

The Sophomore team was made up of some strong men because the regular team members did not arrive on time. When they did arrive they were forced to sit on the sideline and watch the excellent playing of the youngsters.

The Seniors and Juniors will play Wednesday afternoon for the championship of the school. Sophomores and Freshmen will play for third and fourth places.

LETTER FROM LESLIE PRESCOTT TO THE LITTLE MARQUISE CONTINUED

"Everyone of the batch bark notes have been heard from," said Will of the Wisp to the Twins. "And no one seems to know a thing about the last button you are hunting."

Jingle Jumper, the tattered, jangled the buttons in his pockets, the eleven which had already found, and said, "Well, I think we shall have to make these eleven buttons do. Time is going and the Fairy Queen will wonder where we are."

"How many buttons were there?" asked Will of the Wisp.

"Twelve," said Nancy.

"Couldn't you sew up one button hole?" suggested Mister Will.

Jingle Jumper considered. Would it be possible to keep Puff's coat closed with eleven pearl buttons if he took a violent sneezing spell? or would it be better to keep on hunting until they found the other button?"

Suddenly he laughed aloud. "I've just thought of something," he said. "I'll go to the grocery store and get some sneezingless pepper. Then the eleven buttons will not only be enough, but they will be sure to stay on because Puff won't sneeze any more."

"I hope it will be as you say," said Will of the Wisp, trimming the wick of his lantern and filling it with oil, as it was getting late and almost time for him to make his usual rounds as night watchman of Dixie Land.

"Thank you, I am sure we shall if we look in the right place," said Jingle Jumper.

So they all shook hands with Mister Will and said goodbye and thanked him for helping them and then as Jingle Jumper passed one of his twelve buttons which said "Never" and even so small," the three travelers shrank to the size of pinheads. There went the three humming birds beside them waving, and they all jumped on.

"Stop at the Green Wizard's house on your way to the Fairy Queen's palace," ordered Jingle Jumper.

So away hurried the humming birds. And the Green Wizard willingly and kindly gave them a box of sneezingless pepper.

Then they turned in the direction indicated by the "Never" and they reached at about the eleventh anyway.

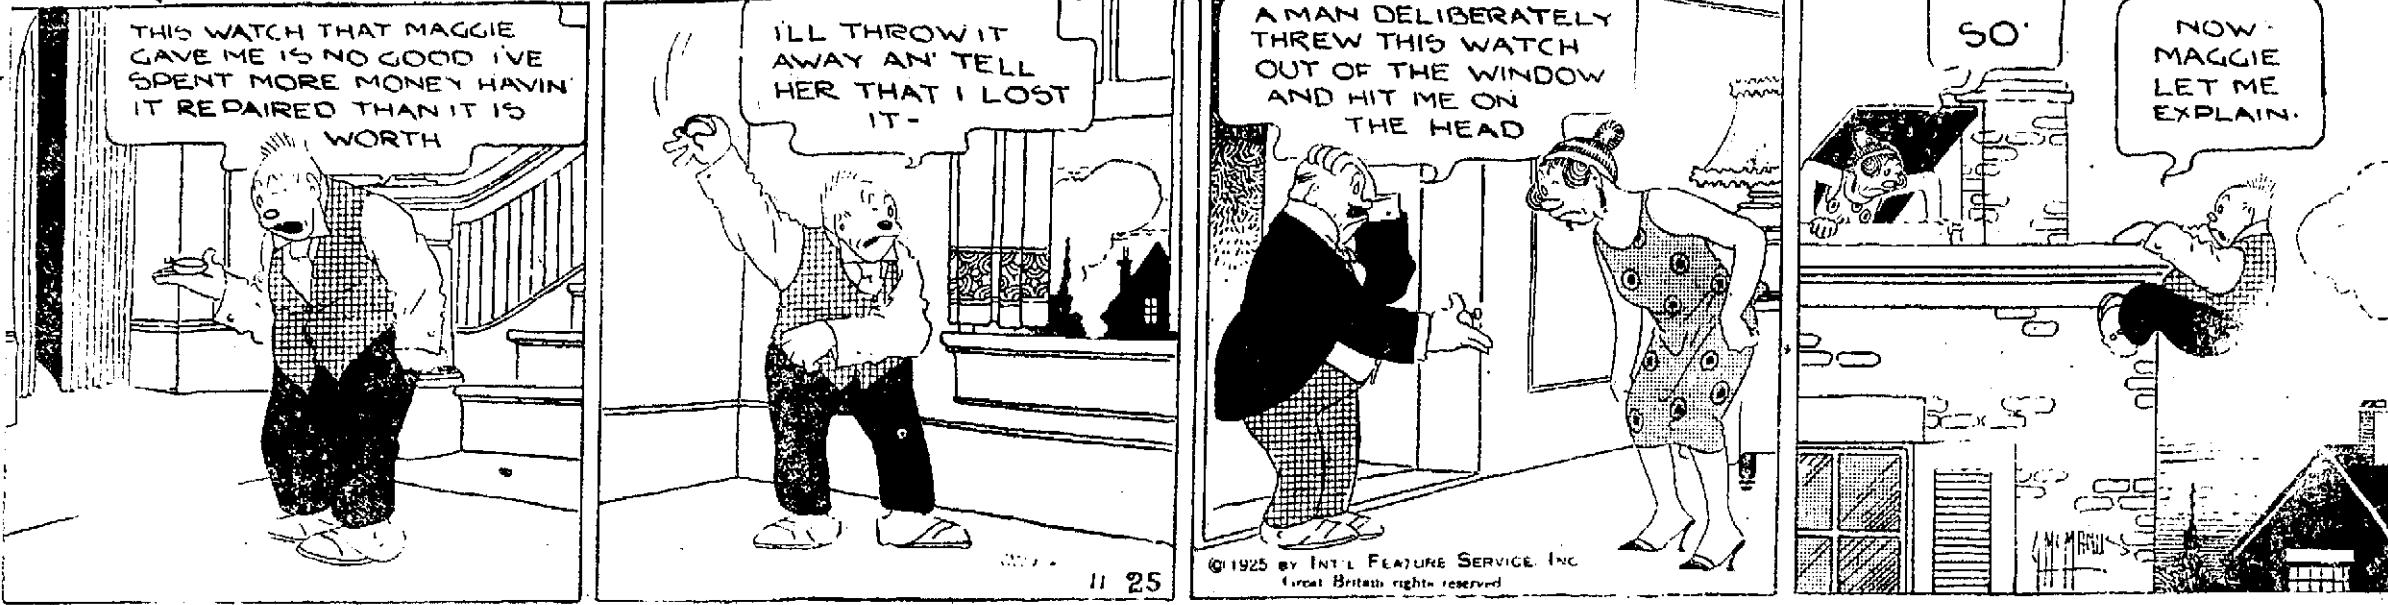

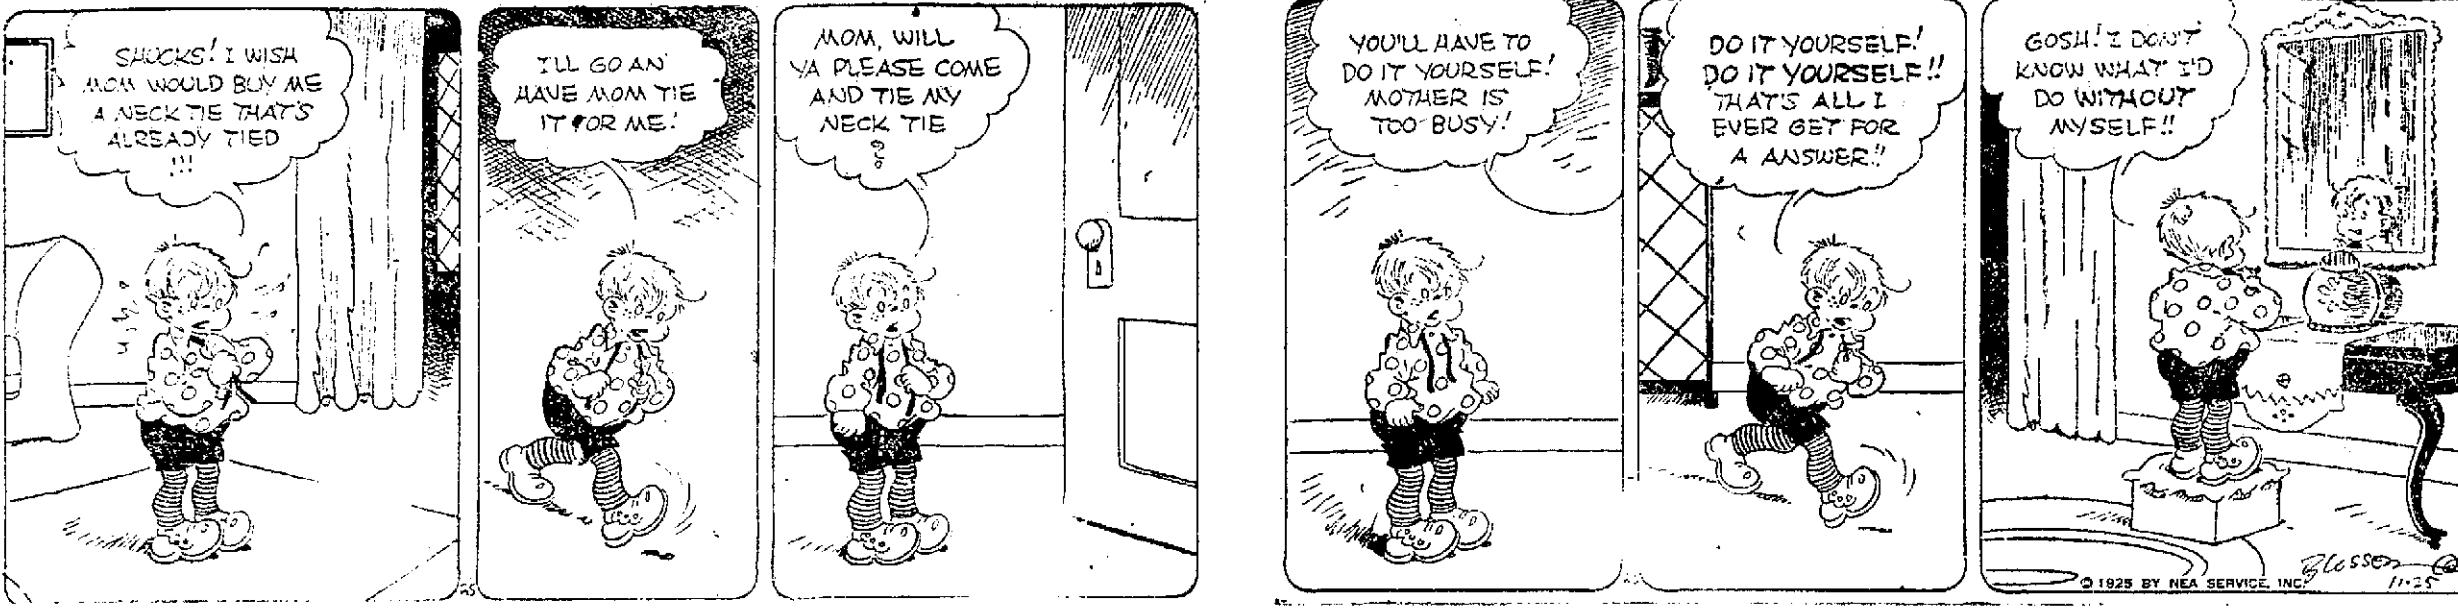

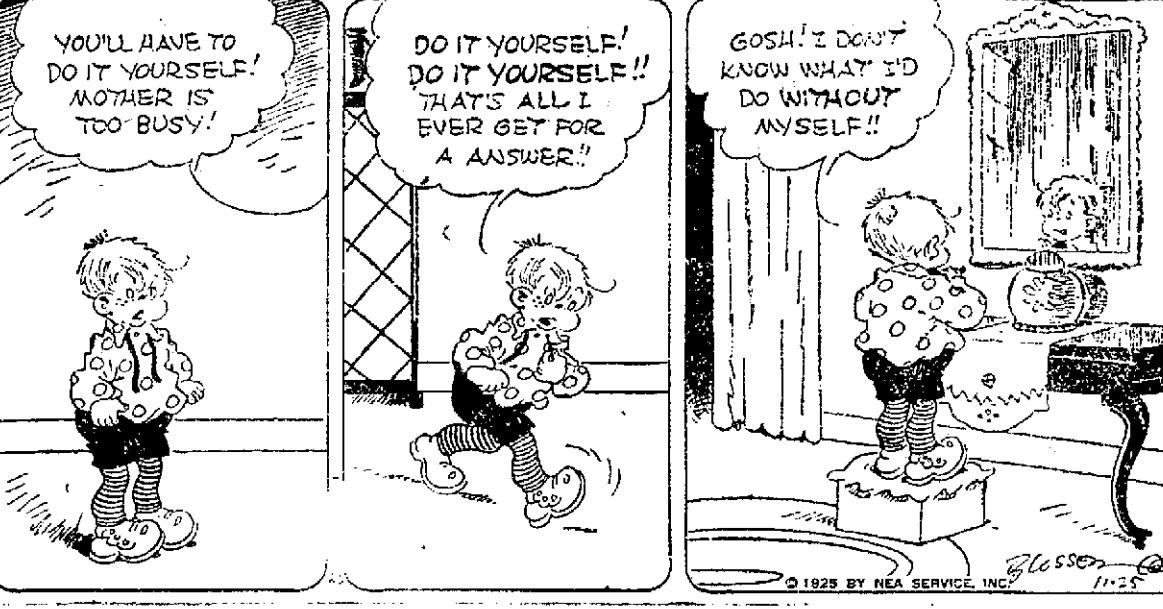

Jingle Jumper was just getting ready to step into the Green Wizard's house when the Fairy Queen's entourage was cross, ever so round. Mr. Sartoris will not hang the Fairy Queen's entourage about him long. He is leaving right after his luncheon for the oriental thing had Puff cooked since he left. "But how," said he, "would I eat with one hand? I have to hold change your mind and come?" I'm going to invite the whole five men with them when you catch me again every day to come and bring their wives, as Mr. Sartoris pouts.

"You'll not get one of them," says Ahern, 1925, NEA Service, Inc.

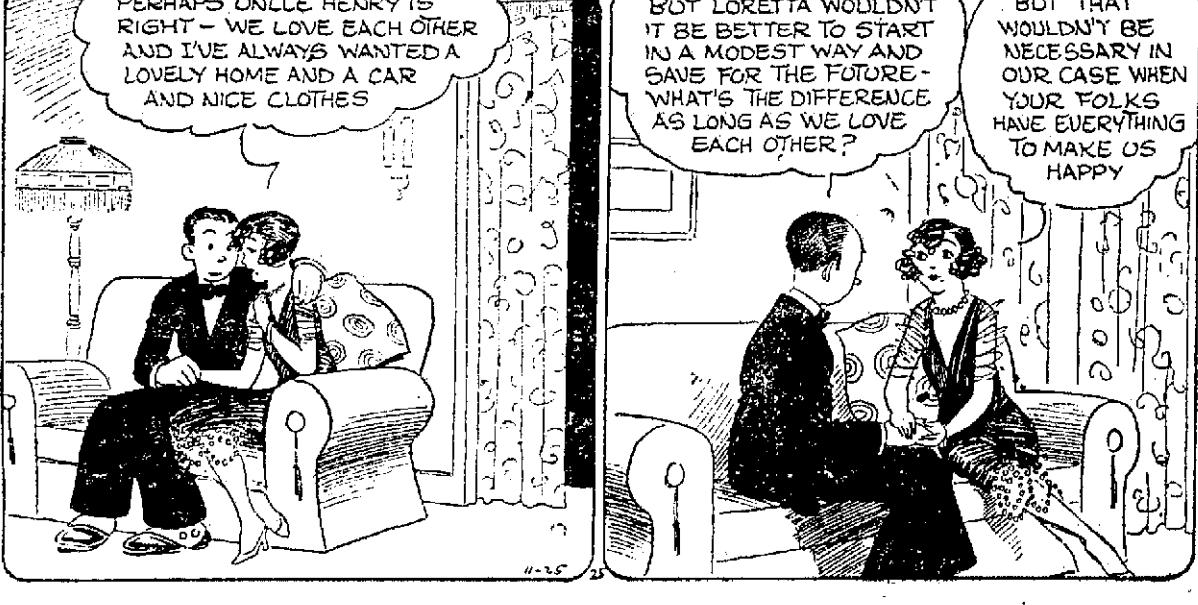

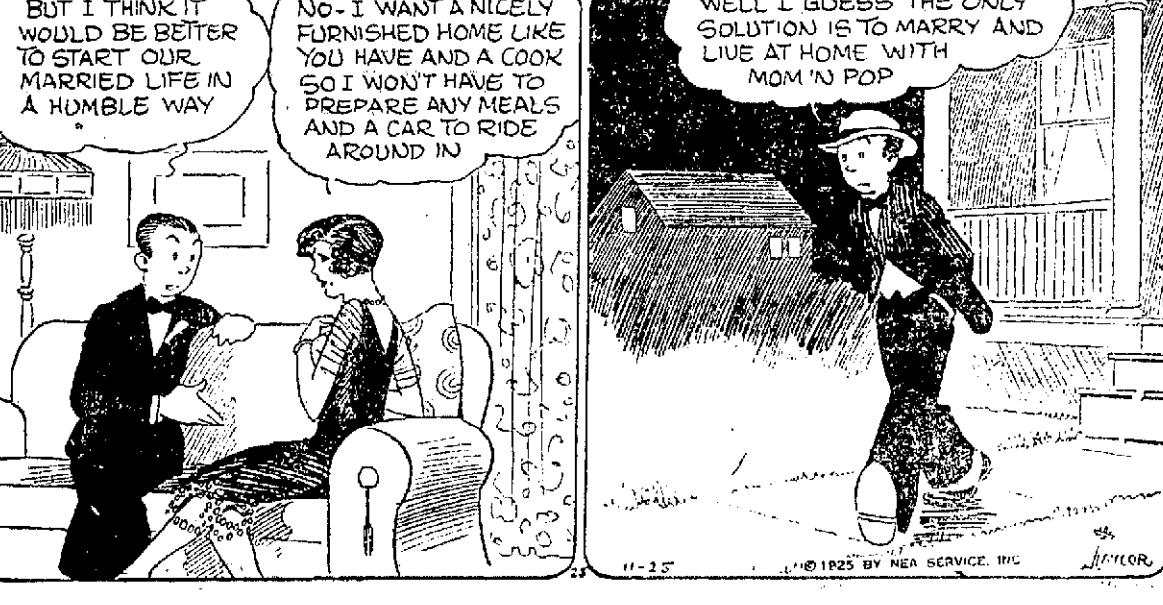

TOMORROW—Letter from Leslie Prescott to the Little Marquise.

"Yes, it is hunting the Fairy Queen. It was at the bottom of the tree where the Fairies will have it all over the top of the tree." To Be Continued.

HIGHLIGHT
against the greatest of odds to end the 1925 gridiron season with at least one win, Appleton's high school football team will take on the strong Marquette highs, defeated but once this season, in its final battle Thursday afternoon at the Northern city. With all odds favoring a Marinette win in easy fashion, Mac's boys, burdened with several more injuries from the Sheboygan battle last Saturday, worked hard

When East and West Green Bay high schools clash in the annual Turkey day struggle at the Bay Thursday afternoon, two titles will be at stake. Each squad has won five games and lost none in the "valley" conference race, being the only teams with clear records, so that the battle will be for the valley title as well as the city flag. East is a slight favorite because of a better showing this year against the team both have played, but West always exhibits its football in the big city game and because of the rivalry may upset the dope and squeeze out a win. East has been winning for the last few years and West would "just love" to take the big game. However, Dave Zuiderduin, East's dashy captain has set to be stopped in two years' valve competition and it is the opinion in the valley circles that the team which stops Dave will beat East, if such a thing can be done. Altogether, the big Bay classic should be a game of Class A caliber worth going to see, a real title struggle.

**CORNELL-PENN GAME
BIG TILT OF EAST**

New York—The annual battle of Cornell and Pennsylvania at Philadelphia is Thursday's eastern gridiron feature. A year ago "Gloomy GI" Doré, Cornell coach, made the pre-game statement that Pennsylvania would beat his team, and Pennsylvania did 20 to 0. Doré has been silent about Thursday.

This week and will endeavor once more to cave in the dope bullet which has withstood its rampages all season. The squad, accompanied by C. W. Cross, faculty manager, Coach McAuliffe and George Uebelacker, star center, injured for the remainder of the season in the Oshkosh bat-

tle, will leave Appleton at 8:30 Thurs-

day.

Preparations for either a five or six club loop for the coming winter season were made by the schedule committee of the newly organized Fox River Valley Ice Hockey League at a meeting at Menasha city hall Monday evening. The committee consisting of R. C. Miller, Menasha; Arthur Jape, Neenah and Walter Bell, Appleton, drew up two complete schedules, one for a five-team loop and the other for a six-team circuit. The latter was made out in the event of the addition of another team, which the teams now entered very much desire.

The five-club league will consist of Menasha, Neenah, Kaukauna, Appleton, Oshkosh, all already signed up. Efforts are being made to interest Little Chippewa and Kimberly to put a combined squad in the field and if this fails other nearby cities will be invited to enter teams. With the two schedules all drawn up and either ready for use right up until a few days before the first game the present loop members can wait until the final week to complete the sixth team. In the five-team schedule four games will be played at home and four away from home with one team resting each week. In the six-team league five games will be played at home and five away from home. The schedule will open Sunday, Dec. 12.
